

AN INVITATION TO...

Help us shape the future

Together we developed a vision and made a commitment to improving early life through the creation of the Regina Children's Charter. This work was an important milestone for community mobilization and we want to keep the momentum going forward.

Therefore, the Regina Regional Intersectoral Committee along with the Regina & Area Early Childhood Network (RAECN) would like to welcome you back to shape the future direction of our work to help children thrive.

Various ways of implementing the Children's Charter will be discussed as well as presenting the Regina Children's Initiative and shaping a long-term work plan. Your input is needed to help solidify growth and development within our Regina Communities.

Please join us and engage!

September 29, 2011
